Publication Process

1. An author submits the manuscript to the journal.
2. The managing editor checks if the manuscript meets the requirements or not (max. 40 days to reply).
3. If the manuscript meets the requirements, it will be sent to the section editor for similarity index scanning.
4. If the manuscript is rejected for similarity index scanning, the manuscript will be sent back to the author.
5. If the manuscript passes the similarity index scanning, it will be sent to the experts for checking.
6. Here, the experts check the manuscript.
7. If the experts accept the manuscript, it will be sent to the author to do the corrections.
8. If one expert rejects it, it will be sent to a third expert.
9. If the third accepts it, it will be sent to the author to do the corrections.
10. If the third rejects it, it will be rejected.
11. (The whole process takes 30-45 days)
12. After checking the copyright letter, and the accounts links, the paper will be sent to the managing editor to be checked.
13. If the_________________________________________________________________________________________________
